

Developing The Future. ThyssenKrupp

If you
haven't
applied here,
you haven't
applied.

www.jobs.aidt.edu/steel

ThyssenKrupp has broken ground on a project hailed as one of the largest economic development investments in the United States over the next decade.

ThyssenKrupp Steel USA and ThyssenKrupp Stainless USA are actively seeking candidates for industrial maintenance and operations positions at its new state-of-the-art carbon and stainless steel processing facility currently under construction in north Mobile County, Alabama. You have an opportunity to be part of this historic project.

- Industrial maintenance technicians can earn up to \$30/hour in total compensation.
- Operators can earn up to \$25/hour in total compensation.
- Candidates will be interviewed only after successful completion of AIDT's pre-training program.
- You do not need to reapply if you have already applied at AIDT for the ThyssenKrupp project.

All applicants must apply online* at the
AIDT program website:

www.jobs.aidt.edu/steel

****No applications will be accepted in person, by phone, or at any AIDT or ThyssenKrupp office.***
